# COVID-19 Outbreak 2020

4/24/20

The world was still on it's side today, and the outbreak is still getting worse. Our online school is getting sorta borin', due to the fact that all the screen time makes my head hurt and that I am usually working until dinnertime. Sure, we get to do class meetings which are video calls (meet.google.com), but the quality is not the greatest when it's 25 people at once, and google chat (chat.google.com) is messaging (I mainly use it for friends) is int video calling, only messaging. Now that I am nine (my b-day was the 21st) I am getting a bike in 1-2 week/weeks.

I am currently building a website for social networking. Everyone still has a stay a t home ORDER from the government of Colorado, but certain county's do not (one of those is not Jefferson County.) the only time we ever leave our property is:

- 1)to go to the grocery store.

- 2)tTo go on hikes. I can just not believe that this is actually happening, I mean it's just one peaceful day, and the next day it's not! I mean, everything just happened so fast like, the world is in an economic breakdown! There are 3 more weeks of school (it ends on may 23rd.) which is kinda good but kinda bad, because I can have a lot less school time, but I will not be able to see my friends again until august, when school starts.

Another bad thing is that we probably will not be able to visit my cousin's in Newberry, Oregon this July. One thing I AM excited about is that it is Friday, which means I will not have school for three days! (Monday is teacher planning day and student catch up day, but I count it as part of the weekend.) As usual we had breakfast, did schoolwork, had lunch, did more schoolwork (or at least I did), then ate dinner, then went outside. So it was a nice day (well, as nice as one can get during an outbreak.)

Bye, Everett Owen

Pandemic Perspectives

*What is it like not being able to leave your house?*

Not being able to leave your house is no fun. You can only leave if it's essential like going to get groceries. You can't go to the park, see your friends, or anything like that. When you do leave you should wear a mask to keep your germs from spreading and so you don't get other people's germs.

### 2020 Pandemic Perspective Journal

Tuesday 4/21/20 I think I will remember the most when it was my birthday and I wasn't able to see my friends so my mom, and dad planned a surprise drive by parade with people having signs that said happy birthday and other things . I loved it .

What i like the most about this pandemic is... well nothing because i missed my sisters navy graduation and can't see my friends. What I don't enjoy is what I just said this pandemic is really getting on my nerves, because the farther this goes on, the less used to it I will be to everything when we go back to normal.

Friday 4/24/20

What do I think that I will remember the most about this experience well I think that will remember how much I missed my family and how easter I was supposed to go to my grandma and grandpa's house but I missed them both of them I think that's what I'll remember and missing my friends.

**It is so annoying that we can't leave our home because the activities we do get are boring after some time. Most of the activities are already boring.**

What is it like to learn at home with your family?

It is the absolute worst thing I have ever had happen to me. My parents are definitely not cut out to be teachers . My dad checks, checks, and checks again. I tell him it doesn't matter because the teacher checks the work, not the parent. My dad goes crazy over the silliest mistakes. For example, if I mess up on a few words in a sentence he will make me redo the sentence until I get it absolutely correct. I really wish we still had to go to school!

## Coronavirus Haiku

**3rd Grade**

**What I will remember most about this Coronavirus is home schooling and not being able to leave the house. I do like how we have a nice routine going and that I get to spend more time with my family but I'm excited to get back to school to see my friends. Once I'm able to leave the house I'm most excited to go to the arcade. I also will be happy to have a sleepover with friends.**

How are you communicating with your friends and family?

The way I am communicating with my friends and family (that I don't live with like my brother at college and my grandparents) is by talking over the phone. One other way I am communicating is by playing games online with my friends and brother. I use a headset to talk with them through the online games. We mostly play Minecraft and Slime Rancher together. I miss playing with them in person. The online games are fun, but it is not the same.

Wilmot elementary school Tessa Templeton

My slice of life is my Grandpa had the Coronavirus. It was really bad because he is 71 and used to smoke. He went to the hospital for 8 days, got on oxygen and 8 days later went home. He lost his sense of smell, he got confused, and I was really worried but he is better. I was really happy that he is better.

**Because of the Pandemic we have to stay home the whole school year and we are working on our computers. Staying home started March 17th a month away from when I wrote this. It is very hard staying home but it may be a little bit more fun because if you like screens then you may be able to do some more than usual. The pandemic It is mostly infecting people over 60 years old.**

**It is kinda annoying wearing a mask out in public, some people may even spread the pandemic to someone else by talking to others, people have to stay 6 feet away from others.**

**P.S. This is when the covid 19 came out.**

What do you enjoy the most about staying home? What do you enjoy the least?

I enjoy playing with my chicks during the day while staying home, and I enjoy playing with my sister, most days. I, also, am having fun checking out my new house and big yard. I don't like staying at home because I feel like I keep doing a lot of things over again, and I don't get to play with my friends. I miss seeing my friends at school and being able to hug them. In addition, I don't get to go to my fun activities after school like ballet, soccer and Ninja Warrior.

**Cora Picchia 3rd grade Mr. D class Wilmot

**My question that I will answer is : What Is It Like Not Being  
Able To Leave your House? Answer : Sometimes it's kind of  
fun but mostly it's really hard and sad. Sometimes it's fun  
because I get to wear PJs all day. Sometimes its sad because I  
don't get to see my friends.**

## Haden Barnes

This is my mask. My dad 3d printed it for me. First he downloaded a program on his printer. Then he printed it in three pieces: the front filter cover, the back filter cover and the mask. Once he did that he cut some air filter squares and put them between the covers. After that we got a hair dryer to mold the plastic onto my face.

ps.Haden Barnes with no y in Haden and I want this shared online bye.

Keira Beckton

Staying at home has a lot of distractions but overall I like it . What I enjoy the most about staying home is playing outside with my trampoline zipline rope swing and tire swing. What I enjoyed the least is getting in fights with my brother .

**Tuesday 4/21/20**

**It feels like I've been stuck in my house forever and I'm being held captive in my own house! The only place I can go is my back and front yard. I can't go to my friends' houses and I can only see them on a screen. Everything is closed and it feels like it has been abandoned or left behind. I wish I could go climbing at the climbing gym or play lacrosse with my team. But I can't. It makes me feel upset and sometimes I get mad. I get frustrated because I can't do all of the things I love to do.**

**What's been on my mind a lot is are we ever going to be able to go back to school and leave the house? And I'm worried that we won't be able to go back to school or get out of the house ever again!! But I try not to think about that and make the most of it. I'm sure one day things won't be like this anymore!**

### 2020 Pandemic Perspective Journal

During the pandemic there are good things and bad things. Some of the bad things are things that I miss. I miss seeing my friends, going out to eat, playing on a playground, playing soccer and going to school.

Also learning from home as a challenge. I feel most of the time is depressed and lonely.

What I enjoy the most about staying home is: more computer time, more piano playing, doing Zoom meetings with my mom's family, hiking everyday with Dad, brother and dog; FaceTime play dates with friends, seeing Grammy and Grandpa from a distance at their house, and more time playing on our trampoline.

I don't really like not being able to leave the house but we are doing the best we can as a family.

What I've learned about going through this pandemic is don't put things in your mouth (like your hands) and wash your hands every day multiple times for 20 seconds.

Tuesday 4/21/20

It is so boring staying home all day. I communicate with my friends by chatting. It is sometimes hard to do school work because you don't know exactly what to do. Have to video chat with my teacher.

2020 Pandemic Perspective Journal

Tuesday 4/21/20

How I am communicating with my friends is chat, facetime, and meet. My favorite way to communicate is facetime because I get to see them. Learning at home with my family is hard because my mom pushes me to get done early so I can play outside. What I enjoy the most about staying home is that it can be done early and what I least like about staying home is I could be done later. What it is like to not leave my house is sad, because we can't travel ,see the world and see my friends.

**Jordan Faircloth 4/21/2020**

**My name is Jordan Faircloth. I am sad about Taiwan. I am from Taiwan. I am ten years old. I came here in 2008. I come to Colorado. My school is Wilmot school. I am in the 3grade. I am in the Mr. Debonis classroom. I live in Evergreen near the mountains. Colorado has a train station. Colorado has an airport. Colorado has a school bus and snow track.**

**School is on the computer because people are sick. We can not go to school. We have to stay at home. I watch tv shows like super wings. I do my school work on my computer. I also watch videos. I send a message to my teacher. I need some help with my math because I have some trouble with my math. I like Epicbook.com because people can read to me and inside they have fairy tales too.**

**I want to travel with my mom again and to go to Kentucky with my mom. I want to go to Philadelphia with my mommy and me and work in the office. I want to travel to all the places and all the countries too. I want to work all over the world and go to the train stations and go back to the ice cream store.**
